- RETAIN THE ONE-RESIDENCE-PER-ACRE MINIMUM.
- REMAIN INDEPENDENTLY SERVICED BY PRIVATE AND COUNTY AGENCIES

CRIME AND SAFETY

There is an app Is San Bernadino County Sheriff wanted to share with you called **SeeClickFix** that's available to download on your phone (available for download on Google play or download in the apple store. Any issues such as transients, potholes, traffic signals, weed abatement, etc can be sent to San Bernardino County Public Works through this app. You can take pictures, choose a category your complaint falls under, write a description of what the issue is, and send it to them. It's really easy and hopefully, it can get some issues you've been having taken care of. I don't have email addresses for everyone in your community, so please feel free to share.

Also, The Caltrans QuickMap web page presents several types of real-time traffic information layered on a Google Map. The information includes traffic speed, lane and road closures due to construction and maintenance activities, incident reports, Changeable Message Sign (CMS) content, camera snapshots, and active chain control requirements. Traffic speed is indicated by color-coded lines overlaying the roadway. The location of information content for the remaining layers is identified by markers (icon images) on the map. Clicking on a marker displays the information details in an info window pop-up.
